#SAAM

**You know sexual assault on college campuses is a major problem.**

But it doesn't have to be this way. Your sorority or fraternity has a lot to offer – use your leadership and resources to help prevent sexual violence on campus. When your organization promotes equality, respect, and accountability, it helps create a safer space for everyone.

### Support an equal and safe campus community:

- Sponsor campus-wide awareness events that focus on consent, healthy sexuality, and bystander intervention.
- Partner with other groups on campus or in the local community that support equality, such as LGBTQ organizations, your campus women's center, or local rape crisis centers.
- Educate members about what enthusiastic, affirmative consent looks like.\*
- Step in and speak up when you hear rape jokes, see sexual harassment, or observe situations where consent hasn't been or cannot be given.
- Sign the It's On Us pledge\*\*
